Green

Green is the color of nature! It signifies growth, life, health, freshness, renewal, environment. On the other hand green color is also denoted with envy and inexperience. It is a restful color and has a very calming effect like blue. Having a both warming and cooling effect green evokes a sense of balance, harmony, stability and above all Spring time! Using green with blue produces echoes of nature and can signify new beginnings.

Green with brown shades can symbolize recycling goods and preserving nature. Using orange or yellow with green will make a very refreshing and lively palette. Green is mainly considered the color of peace and ecology. Green has a soothing, relaxing feel to it. It helps alleviate depression, nervousness and anxiety. Green make a perfect color in interiors as we are so used to see it in the natural backdrop.
