Yellow

Yellow is the color of hope and happiness! It is sunshine, warmth, gold, joy all wrapped in one. It falls in the category of warm colors like red and orange but its intensity varies from these two. On one hand yellow is the color of happiness whereas it is also associated with deceit and cowardice.

Yellow can be used in a color palette to perk up the scenario. Using yellow with blue will result in an eye popping combination. Mixing yellow with grays or black will give a very high-tech look.
